

CELEBRATION OF MY LIFE

I wish that you could understand
And know that I'm still here
I have been born in Heaven
In your hearts, I am still near

The veil of Heaven has lifted
These eyes, they now can see
My trials on earth are gone
And my soul has been set free

I was welcomed into Heaven
With great love forevermore
We are all made in God's image
Means to me now, so much more

There's great peace and happiness
A great feeling of awe is near
Our loved ones and our friends
Who have passed on, are here

I've been dancing with the angels
The air is wonderful and sweet
Everything is bright and beautiful
With dancing flowers at my feet

This is a glorious celebration
My life's continuance up above
And on earth my life continues
In the hearts that I know and love

Please be happy for me
Please try not to feel alone
I am right here beside you
It was my turn to go home

I am watching you from Heaven
And I am as proud as I can be
Don't keep your tears locked inside
Turn them into happy tears for me

I will be there when you need me
As you travel along life's way
Please remember that I love you
And wish you happiness every day

Remember me with memories
Heal with laughter and with smiles
I will be there beside you, enjoying
Our treasured memories all the while
