

# Life is God's Gift To Us

Life is a wonderful gift  
That is given with great love,  
By our wonderful Heavenly Father  
Up in Heaven, our home above.

Through all our life here on Earth  
Our Divine Father is always there,  
He never will leave our side  
For all His children He does care.

He watches and He guides us  
Through our long and weary way,  
Until we find ourselves home  
With Him in glory someday.

On Earth we learn new lessons  
All very unique, different and new,  
To help our souls find knowledge  
There's many different things to do.

When the timing for us is right  
Through laughter, smiles and tears,  
We'll be remembered for our love  
And how we have lived our years.

Then we'll be at home, in Heaven  
Seeing great love in God's Face,  
With a new wonderful, glorious life  
Transformed by God's loving grace.

The curtain will have been lifted  
With our Father we'll see the light,  
Without leaving behind loved ones  
We're given a unique glorious sight.

A new gift to us has been given  
To enjoy our God and Eternity,  
While we do watch our loved ones  
With our hearts we now can see.

We now live in eternity's future  
With love so radiant and bright,  
From God to all of His children  
He always makes everything right.
